About the Quail Lakes Bible Institute

The Quail Lakes Bible Institute is a Quail-based certificate program with a goal of providing ministry preparation and/or preparation for further training that is affordable, church-based, and includes mentored guidance. This program will assist adult students who wish to attain proficiency in biblical literature, theology, church history, and church leadership on a level that will allow them to succeed in the college context for ministry preparation. Alternatively, if Christian ministry is not the student's goal, the program will create more informed Bible students and ministry participants in the local church. The students will be provided the opportunity to acquire a comprehensive understanding of the Bible's structure and themes, as well as a thorough grounding in systematic theology and the theology of Christian leadership.
